MÁLAGA مالقة

Over 700 years of Islamic civilization in Andalusia left behind more than monuments. It gave Europe a **renaissance** of thought: libraries, gardens, science, and architecture.

Málaga was one of its shining cities, a port of trade, culture, and cosmopolitan beauty.

"¡Oh tú que el más oculto sentimiento
sabes del corazón! Oh tú que en los
trabajos das aliento
Y alivio en la aflicción..."

"O You who know the heart's most
hidden feeling..."

O You who gives courage in hardship
and relief in affliction."

— 'Abd al-Rahman al-suhaili, 12th century Malaga

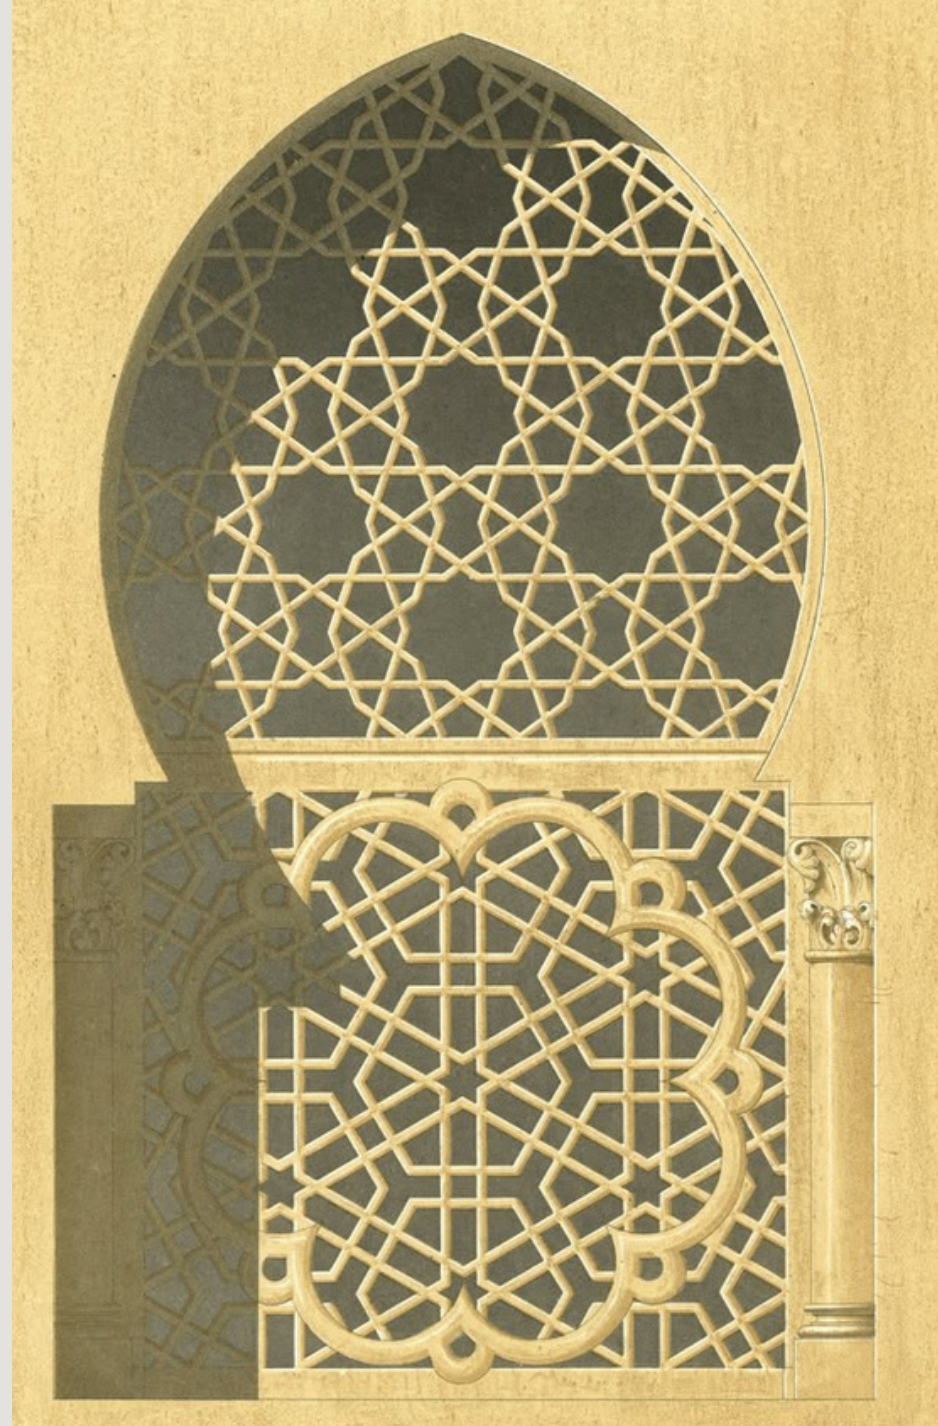

THE OCTAGRAM

At the heart of **Islamic art** lies the **ثمانى الأضلاع**, the eight-pointed star.

In **Sūrat al-Ḥāqqah (69:17)**, the Qur'an speaks of a powerful image:

"And eight [angels] will bear the Throne of your Lord above them that Day."

Many believe this inspired the eight-pointed star.

ARABESQUE IN SILVER

Crafted in solid **925 sterling silver**, this pendant carries more than aesthetic value, it represents **continuity**.

Silver has long been favored in **Islamic culture** for its purity and clarity, We shape it with precision and care, to echo the enduring legacy of the past.
